

JOB TITLE	Trainee Cathodic Protection Technician
RESPONSIBLE TO	Field Services Manager
LOCATION	Grantham, Lincolnshire, UK

THE JOB ROLE:

Whether you're straight from school, college or looking for a change in career – we welcome everyone at Cathodic Protection. You'll be given an enhanced training programme over a 2-year period with a role based on site.

The company is seeking a CP Technician to strengthen our field services team. The training period for this position is for up to 2 years and requires an individual who will be responsible for supporting CP Technicians and Engineers in performing cathodic protection related field testing and data collection of systems on pipelines and other facilities field-wide related to corrosion control and pipeline/facility integrity.

Whilst the job has technical functions to it, training will be provided to the successful candidate. A key attribute to this role is someone who is self-motivated and committed to providing excellent service and support. It's a role that is mainly outdoors and requires an element of physical fitness. Travel (around the UK and potentially abroad) is a pre-requisite to this job.

Typical travel is Mon-Fri 'working away 50% of the time with expenses such as hotels / meal allowance provided.

KEY SKILLS AND ATTRIBUTES:

We're looking for individuals with an ability to connect with people and a willingness to get stuck in. As mentioned, previous experience is not required as we will train you and equip you with the new skills you need. We're looking for people who are:

- Excellent communicators
- Happy working outdoors whether it's glorious sunshine or bracing British weather
- Open to learning new technology and comfortable using smart devices
- Physically fit and comfortable with heights to safely carry a ladder and climb a telephone pole
- Good at Maths and English
- Full driving licence (non-drivers will be considered)
- Able to manage their time as well as their workload
- Strong teamwork, and prioritisation skills.

- Applicants should also have good interpersonal skills and be able to build relationships within the team and with customers from a range of cultural and ethnic backgrounds.
- Strong written and oral communications skills
- Proficient with computer skills (MS Office, operating systems, company software, and technical systems)

TRAINING TO BE PROVIDED:

- Confined space training
- EUSR, Safety Passport, CSCS Card
- First Aid Training
- Cathodic Protection Training (Institute of Corrosion)

THE REWARDS:

- 25 days annual leave (plus bank holidays)
- Opportunities to progress into higher graded roles
- If successful, you'll have achieved a qualification for Cathodic Protection amongst other transferable qualifications

JOB TYPE:

- Full-time, Contract
- Permanent
- Overtime
- Weekend availability
